The development of disease

From the dynamic level....

## Dynamic disease (cause)

Organon 6<sup>th</sup> edition § 11:

'...When a person falls ill, *it is only this spiritual, self acting (automatic) vital force, everywhere present in his organism, that is primarily deranged by the dynamic (2) influence upon it of a morbid agent inimical to life*; it is only the vital force, deranged to such an abnormal state, that can furnish the organism with its disagreeable sensations, and incline it to the irregular processes which we call *disease*; ...

---

---

---

---

---

---

---

---

---

---

## Dynamic disease (cause)

.... for, as a power invisible in itself, and only cognizable by its effects on the organism, its morbid derangement only makes itself known by the manifestation of **disease** in the sensations and functions of those parts of the organism exposed to the senses of the observer and physician, that is, by morbid symptoms, and in no other way can it make itself known...'

---

---

---

---

---

---

---

---

## Dynamic diseases

- Exist primarily on the dynamic level of the vital force
- Can therefore not be diagnosed with modern equipment (developed to diagnose material disease)
- Dynamic diseases are not taken seriously
- Are considered to be imaginary

---

---

---

---

---

---

---

---

---

---

## Dynamic disease

- Disease exists on the dynamic level
- Dynamic remedies (high potencies are required for curing)

Homeopathy as a *re-action* system, the patient cures him/her self  
 Dosage depending on the reaction of the patient  
 Centesimal potencies are mostly infrequently used  
 Q-potencies are used on a daily bases

Detailed application of the law of similar is necessary

## Similia rule in Homeopathy

The application of the law of similars:

- Similar to the *disease* form to be treated
- Similar in symptomatology, remedies from the right source
- Similar in disease dynamics. (acute # chronic)
- Similar to the sensitivity of the patient to the remedy influence
- Similar to the responding possibilities of the patient
- Similar to the moment of time, the right time of taking the remedy
- Similar in potency
- Similar in dose.
- Similar in frequency

Dynamical disease eventually develops into the physical disease.....

### Material disease (result)

Organon 6<sup>th</sup> edition § 279:

'.....This pure experience shows universally, that if the **disease** do not manifestly depend on a **considerable deterioration of an important viscus** (even though it belong to the **chronic and complicated diseases**), and if during the treatment all other alien medicinal influences are **kept away** from the patients, **the dose of the homeopathically selected and highly potentized remedy can never be prepared so small** that it shall not be stronger than the natural disease, .....

### Material disease (result)

..... and shall not be able to overpower, extinguish and cure it, at least in part as long as it is capable of causing some, though but a slight preponderance of its own symptoms over those of the disease resembling it and extinguish it from the sensation of the principle of life and thus make a beginning of a cure....'

### Organon 6th edition § 279:

Dynamic diseases, acute and chronic, should be treated with high potencies in order to start the curing process.

- The remedy should be homeopathically selected
- The remedy should be highly potentized and potentized in-between
- The dose cannot be low enough
- The frequency of the dose depending on the reaction pattern of the patient

### Organon 6th edition § 279:

*Homeopathy as a re-active curative medical system.  
The patient cures him/her self*

Allopathic and other medical influences should be kept away

### Material diseases

- Material diseases are an expression of the vital force on the physical level.
- Material diseases are the result of a chronic disease process.
- Material diseases can be diagnosed with X-ray, MRT, CT, Pet-scan, Biopsy etc.
- Physical diagnose can lead to a prescription based on protocol (no individualization required)
- Law of similar: Material disease should be treated with dynamic (origin) but also with material doses (result)

## The Banerji protocols

The Banerji protocols

Based on clinical confirmed diagnoses.  
Prescription of homeopathic remedies based on physical pathology.

Banerji Protocols based on vast experience and developed over  
decades and hundred thousands of patients.  
The effect of the Banerji Protocols are scientifically indisputable.

The Banerji Protocols are completely in line with  
The Organon 6th edition §279.
